

# How Jira works

# Jira Instance

- Cloud Instance
- Server Instance

# Server Instance

- Setup Jira Software on your hosting server
- Example `jira.yourhosting.com`
- Need to manage and update time to time.
- If you have a big project and a big team then only use Server Instance.

# Cloud Instance

- Setup Jira Software on [atlassian.com](https://atlassian.com)(jira Cloud only)
- No server cost
- No security code
- No need to update time to time
- Best for learning -> Create Account and Setup project
